

COMPILATION OF NICE COMMENTS FROM STUDENTS
ONE OR TWO FROM EACH CLASS – LAST NAMES REMOVED

Professor Cron,

I want to say thank you for helping me address my issues in writing. I can honestly say that my writing has improved over the course of this class and I can only thank you for pushing me. I am sure the other students can agree with me on this and use the information we have learned and utilize it in the future. Thank you!

Joshua

There were many aspects of this course that were very informative. My only regret is that I should have taken the course sooner. I could have used many of things that we learned this semester earlier in my professional career. Things like resume writing and drafting bad news messages are things that I have already encountered in my professional career, but I now know I would have been more effective in doing so if I would have taken this course sooner. I found the discussion topics to be very helpful during this course. The mix of topics for each week allowed for some flexibility in regards to writing paragraphs, correcting sentences, etc. Having a professor that stayed engaged with the class throughout was very refreshing as well. One of the best courses that I've taken with UMUC for sure.

Todd

Hello professor,

Here is my last assignment for this class. I would like to thank you from the bottom of my heart for being such an amazing instructor. You not only care for your students and always help us but you are also very emotionally supportive. It feels great to see that a professor is always there for you and is willing to do anything to make you feel good and answer all your questions without being rude. I really wish all UMUC professors were like you. Taking online courses would be so much fun here!

Thank you for everything that you do and everything you have done for this class. I tried my best to finish the final before Thursday so I can get the extra 2 points. I will also be submitting the survey for the extra points soon. Thank you once again and hope you always stay as amazing as you are. Take care professor.

Shabnam

Professor Cron,

Again, I'm honored, amazed, and humbled that you think so much of my paper to use it as an example for future classes. I have no problem with that at all. The numbers of assigned personnel and budget are not correct for the same reason you inquired about. The facts are all true - same number of people and deep budget cuts.

In closing, I'd like to explain why I always used 'Professor Cron' in my discussions and correspondence. The Army is very much a hierarchical organization and titles are very important. Over my career, I came to realize that its not the title, but the person who lives up to the title. Those that don't, receive respect

based only on their title. Frankly, that respect doesn't get them much. You lived up to and beyond your title of Professor! I have the utmost respect for you, your teaching ability and the lessons you taught me.

Thank you and Best Regards,

Miles

Good Luck Everyone,

This has been such a wonderful class and it's been a pleasure working with each of you. I wish everyone well, and hope everyone excels in their studies. Prof. Carol, you have made this class easy to follow and I feel that you have been a big help. Thanks for all the extra credit and your quick responses to my fellow classmates questions. I hope everyone enjoys the rest of their summer!

Brianna

Sec. 4025 – Spring 2015

Professor Cron, I'd like to take this opportunity to say thank you so very much. Being a student with disabilities has its challenges. Having a disability means, you're not always at your best, or and you may have to try to play catch up when you miss class, but no matter how large or small my questions were, your were there to answer them, and help me in any way you could. I also want to thank you for your prompt replies, I am truly grateful.

I've had some professors who were good, not so good, and some great, and for your overall performance as my professor, you're a great professor in my book. I hope you have a good next semester. Thank you again, and God Bless You!

Felicia

I really enjoyed the class and even though we were a small group, I think we all learned a lot from each other. As I stated at the beginning, I've never seen a Professor so involved with the class online. Prof. Cron, thank you so much for taking the time and answer all our questions! It was great to learn new techniques and all the things to consider when building a resume.

The incorporation of using Thesaurus during different class exercises was great too! I learned a lot and think that I've been able to increase a little bit my vocabulary. Let's finish the research paper!! :)

Good luck to everyone! See you around!!

Thank you,

Rose

Spring 2015 (March – May)

Prof. C,

I want sincerely thank you for all your assistance with professional writing and your wonderful teaching style. This has been the best course I've taken online and actually enjoyed. If there was a nomination for Best Professor you will most certainly have my vote! Throughout these 8 weeks I've learned so much about effective communicating in the work place. Also, with your keen eye to detail you've help me achieve a personal accomplishment in excelling in my career with taking on a new endeavor. I hope to keep in contact, so please do not forget me!

Best Regards,

Gabby :)

This is my first semester at UMUC and it has been amazing. While I had a rocky start registering and paying for classes and learning how to navigate the UMUC website, everything smoothed out in no time. If this writing class is an example of what I can expect in future classes, I know that I made a good decision to transfer to UMUC.

Thank you Laura (EWC)! I know that your recommendations for my Research Report will help a great deal. And finally, A big "thank you" to Professor Cron for an exceptionally well structured, always interesting and sometimes fun class. I learned a lot.

Robin

Professor,

I want to thank you for teaching this class. This is one of my last classes for my degree and I wish I had taken it first. Your class taught me more about writing than any other class that I have taken over the past few years. I now feel that I am a better communicator and I am excited to apply lessons learned from this class as I continue my career in the Army.

Thank you

Jeff

Professor,

Thank you for your unwavering mentorship throughout the course. The first thing I noticed about you was your passion for students' success. It baffled you to see quiz scores – that are taken with open book – have grades below your expectations. To me, that says a lot. You provided input to each of your students' weekly discussion post, and several student responses to others in the class. Professor to student interaction is an integral part of an online learning environment.

Again, thanks for being an engaged mentor!

Best regards,

Chauncey
